The district is committed to the Dignity for All Students Act (DASA).

The Monticello Central School District encourages students to report school violence and any symptoms of potentially violent behavior to counselors, principals, student coordinators, psychologists, and teachers or any other mentor without fear of retaliation by communicating this to all students at the beginning of the school year and periodically throughout the school year as appropriate

All school staff, students, and others deemed appropriate by the school should receive training during the school year to better prepare them for an incident.

- 1 Roles and Responsibilities
- 2 Incident Command System (ICS) Training — Training should be completed prior to assignment to an ICS role. Online training is available through the FEMA Independent Study Program at www.training.fema.gov. ICS classes are offered through the NYS Division of Homeland Security and Emergency Services (DHSES) at wuu.@hsesn.ggy. or by contacting your local emergency management agency.

Security Personnel — School Security Attendants

A district wide security roving patrol which is stationed at the High School, Middle School, Elementary Schools will routinely patrol assigned building campuses and may be assigned to other schools based on need.

All security personnel hired by the Monticello Central School District are licensed and trained with the New York State. All security is trained in Handle with Care: Crisis Intervention & Behavior Management, First Aid, CPR and AED and numerous other FEMA-based professional development courses.

Security personnel's work is performed under the supervision of the Supervisor of School Safety and Security with leeway allowed to exercise independent judgment in performance of assignments.

Typical work activities of School Safety and Security Attendants:

To assist in keeping our district safe for all, the schools will routinely utilize teachers to maintain a presence in hallways during passing times and maintain a presence inside cafeterias and outside the buildings at the beginning and end of school day.

School Resource Information

Each Building Level Emergency Response Plan will include the following information:

1. School population
2. Number of staff
3. Transportation needs
4. Office and home telephone numbers of key officials within the district

The Building Level School Safety Teams will ensure that this information is updated routinely and is accurate.

Early Detection of Potentially Violent Behaviors

There are early warning signs in most cases of violence to self and others. Certain emotional and behavioral signs that, when viewed in context, can signal a troubled student. The more signs a student exhibits, the more likely he/she may need intervention. Such early warning signs may include but are not limited to the following:

1. Social withdrawal
 - Excessive feelings of isolation
 - Excessive feelings of rejection
 - Being the victim of violence
 - Feeling of being picked on
2. Low school interest and poor academic performance
 - Expression of violence in writing and drawings

- Uncontrolled anger
 - Patterns of impulsive, chronic hitting and bullying
- 3 History of discipline problems
 - 4 History of violent and aggressive behavior
 - Intolerance for differences and prejudicial attitudes
 - 5 Alcohol and drug usage
 - Affiliation with gangs
 - Inappropriate access / use of firearms
 - Serious threats of violence

The above comes from the United States Department of Education's "Early Warning, Timely Response" document. This information will be available for all staff relating to early identification of potentially violent behaviors.

- 1 Information may be made available to parents / guardians on how to identify potentially violent behavior.
- 2 If a teacher or administrator feels help for a student is warranted, it will be discussed with the appropriate school personnel to determine the next step.
- 3 Interpersonal violence prevention education package will be taught as appropriate.
- 4 The District Superintendent will set specific time for the building principal(s) in conjunction with the Monticello Central School District Professional Development Plan to organize activities of concern.

Medical and Mental Health Emergency Annex

Purpose

This annex describes the courses of action that the school will implement to address emergency medical (e.g., first aid) and mental health counseling issues. Schools should coordinate these efforts with appropriate emergency medical services, law enforcement, fire department and emergency management representatives. 8 NYCRR Section 155.17 (e)(2)(vi) requires the coordination of the ERP with the statewide plan for disaster mental health services. The details of how this coordination is accomplished should be documented within this annex. Direction, Control, and Coordination

School Incident Command System

To provide for effective direction, control and coordination of an incident, the School ERP will be activated through the implementation of the Incident Command System (ICS).

Staff are assigned to serve within the ICS structure based on their expertise, training, and the needs of the incident. Roles should be pre-assigned based on training and qualifications. The School ICS is organized as follows:

Supplemental Information as found in the Building Level School Emergency Response Plan

Implied or Direct Threats of Violence

The school district has enacted policies and procedures dealing with violence. These policies and procedures deal with the safety of the school community as well as the range of responses/consequences of those making the threat or committing the act of violence.

Acts of Violence

The district recognizes that appropriate response to acts of violence by students, teachers, other school personnel and visitors varies greatly depending upon the actual threat or act as well as the magnitude of such emergency.

Media Notification Plan

The media plan addresses who is designated to meet/talk with the media. All district/media communication during an emergency must flow through the designated individual to prevent miscommunication or inaccurate information from being released. The plan provides the necessary guidance for district representatives to effectively communicate with the media during an emergency.

Parent/Guardian Notification Plan

Addresses the need for a separate plan to notify parent/guardian in the event of an emergency. The plan provides the necessary guidance for district representatives to effectively communicate with parent/guardian during an emergency.

Post Incident Response I Recovery

Provides guidance to district representatives for initiating a post incident response to an emergency or tragic event. Specific guidance is given to establishing crisis intervention teams and Critical Incident Stress De-briefing teams and how to utilize them.

Crime Scene Management

- ▣ The Building Principal or Designee is responsible for crime scene security until relieved by law enforcement officials.
 - 1 No items shall be moved, cleaned, or altered without prior approval from the appropriate law enforcement agency.
 - 2 Nothing in this section should be interpreted to preclude the rescue and aid of injured persons.

Student I Staff I Guest with Special Needs

- ▣ This appendix is a school specific procedure for students with special needs during an emergency.

Violent and Disruptive Incident Report - SSEC

- ▣ All violent and disruptive incidents must be logged throughout the school year. A summary of all violent and disruptive incidents are to be submitted annually to NYSED.

Monticello Central School District
 Emergency Remote Instruction Plan 2024-2025

Commented [CM1]: @Christine Miraglia

Required Component	Suggested Considerations
1. Policies and procedures to ensure computing devices will be made available to students or other means by which students will participate in synchronous instruction.	<p>The Monticello CSD is committed to ongoing planning and implementation of district technologies to ensure equitable access for staff and students. All students are issued a district device at the beginning of the school year or upon registration to the district.</p> <p>All students in grades K-12 are provided with a district issued device. The device is distributed to the students in the building they attend. Mass distribution at the beginning of the school year is coordinated by the building Principal or designee with the support of the IT department. Parents/Guardians are required to sign the Device Loaner Agreement for any device a student takes home. These are recorded in IncidentIQ (our inventory and help desk system).</p> <p>Building Administrators will communicate dissemination schedules of computing devices via Parent Square. If the device has been lost or damaged, an incident report must be completed by an administrator and sent to the IT department along with the damaged device. If the damage/loss is determined to be intentional or the result of neglect, the Parent/Guardian may be billed for repair by the district. Spare devices are kept on hand in each building for emergency use, replacement, and to issue to new students.</p>
2. Policies and procedures to ensure students receiving remote instruction under emergency conditions will access internet connectivity. §155.17(c)(1)(xxi)(a)	<p>The Monticello CSD has gathered data through our Digital Equity Survey to identify families' levels of access to devices and high-speed broadband from their residence. The district will continue to assess the ongoing needs of our families for technology and connectivity (survey, interviews, school outreach, etc.).</p> <p>Students will use their own internet when at home. If no internet access is available, the district will provide a hotspot, if one is available. Students in need of a hotspot will contact the Technology Department and pending administrative approval will be provided with the hotspot in a timely manner.</p>

The district will ensure that all students have access to Wifi. We will work with our Homeless Liaison to identify students who may not have wifi access and ways we can get them that access. If safe, we will allow students to utilize district wifi by either coming to one of the buildings or by partnering with community businesses and groups to help provide wifi for students who cannot access it at their residence.

Our plan will be consistent with the information provided by families in the Student Digital Resources data collection?

The Monticello CSD is committed to ongoing planning and implementation of district technologies to ensure equitable access for staff and students. Faculty members are provided with a district issued device. All faculty and staff members must have a signed AUP on file and fill out the Loaner Agreement. All non-teaching staff will need to have the request for a device approved by their building administrator or supervisor.

3. Expectations for school staff as to the proportion of time spent in synchronous and asynchronous instruction of students on days of remote instruction under emergency conditions with an expectation that asynchronous instruction is supplementary to synchronous instruction.

Faculty and staff devices will be distributed through the IT department.

Staff in need of access to the internet can request a hotspot for use at home.

The expectation of all staff will be to focus primarily on Synchronous learning for all students. Any deviation from a majority of this platform of learning will need to be approved by administration on a case by case basis.

Asynchronous instruction will be utilized but it will be minimal.

§155.17(c)(1)(xxi)(b)

Students with IEP, 504, or ELL students will be given individualized plans based on their specific needs.

The Monticello Central School District continues to support teachers through professional development and coaching on pedagogical approaches. The district currently employs 2.6 Instructional Technology Specialists. They hold professional development sessions during conference days as well as before and after school. They also participate in department and grade level meetings as well as scheduling one-on-one time with

teachers to ensure they are able to adapt their instruction to the district expectations.

4. A description of how instruction will occur for those students for whom remote instruction by digital technology is not available or appropriate.

§155.17(c)(1)(xxi)(c)

Students will be instructed and educated on a case by case basis and every effort will be made to design an appropriate remote education plan for any student who would not benefit from or qualify for a standard remote program. Students who do not have appropriate internet access will be included in a plan such as a community partner or potentially one of the school buildings used to provide internet access.

Special Education

Requirement #1

Students receiving special education services whether in in-person, digital, or hybrid learning will receive specially designed instruction from their Special Education teachers aligned with their needs in the Least Restrictive Environment as indicated by their IEPs.
